### **LOCAL WHOLESALE TRADE**

THE PROSPECT GOOD FOR ANOTHER WEEK OF ACTIVE BUSINESS.

Quotations on Dry Goods Stendy-Sugars Slightly Lower-Poultry Weaker-Leather Firm.

Appearances yesterday indicated that the very favorable conditions governing the market last week are to continue. There was a good volume of trade in all lines. Dry goods show no change in prices or market conditions. In groceries the only changes noted are a slight advance in package coffees, while all grades of sugar go off a few points. Drugs show but slight changes. Leather holds very firm at the long-prevailing prices. Country produce is steady in the main with rather light re- skin, 90c@\$1; French calfskin, \$1.20@1.85. ceipts. Poultry is somewhat easier, though the supply is by no means excessive. The wholesale houses universally speak of per keg. \$4; mule shoes, per keg, \$4.50; horse nails, \$4@5 per box. Local Grain Market. There is still a notable lack of interest In the local grain market. Despite the abnormally light receipts of wheat the market is again quoted weaker, while corn is nominally held at Saturday's prices. The receipts were quite liberal, amounting to & cars. Oats continue nomina! with light receipts. The secretary of the Board of Grade furnishes the following as the closing prices bid for track stuff:

TRANSACTIONS ON NEW YORK 'CHANGE MONDAY WERE FEW.

Wall Street . Puzzled Over the Enor mous Loans by National Banks-Call Money Firmer.

NEW YORK, Oct. 5 .- To-day's stock market dropped into a professional rut, and there was a shrinkage in the dealings to about half the recent daily average. The movement of prices was exceedingly sluggish, and showed little disposition to get | 88 13-16. far from last week's level. The bullish professionals who had formed a hope that the considerable strength shown last week would serve to reassure bribers and bring them into the market were decidedly disappointed. Notwithstanding the fact that it is usual for considerable orders to accumulate in brokers' offices over Sunday, there were fewer orders, either to buy or sell, in this morning's market than for many weeks past. When the failure of buying was perceived, the traders sold the market, with the result of slowly sagging prices all through the early part of the day. | exclusive of the \$150,000,000 gold reserve in There was no renewal of the late urgent | the division of redemption, shows: liquidation, such as kept sentiment unsettled and nervous until the bankers' support turned the markets. But the recovery from last Monday's low level, which has run from 3 to 5 points for many of the most prominent stocks, seemed to measure the recuperative power of the market for the present. The news of to-day was rather favorable than otherwise, but there was very little of it bearing on security values. To-morrow is the day set for action on the dividend on United States Steel common Offers were made on the curb market today of the prospective dividend at a fraction of 1 per cent. Reports from London that several millions pounds sterling were afloat for that center from India and Africa were a reassuring factor on the local money market, as it promises means to supply American demand upon London for gold, Bags, 25c per ton extra, ground floor or dumped should the exigencies of the money market made public until after the close of the in cellar; 50c per ton extra, second floor or carried in cellar. stock market. But there was no sign of this to-day. Wall street continues to puzzle itself over the enormous loans disclosed by the national banks in the statement of copdition to the controller on Sept. 9 last. The year's expansion in loans of upward of \$200,000,000, with a falling off of deposits in the same period of over \$40,000,000, is the ground for some uneasiness over the general situation. This condition seems to point to a conclusion that in spite of the enormous liquidation there is still much borrowed money tied up. In the case of stocks which have been saved from sacrifice by response to calls for margin, the enormous decline in price of securities must, of course, have involved the placing of very large additional funds. Stocks thus held through a long decline are a threat hanging over the market, on any considerable advance in prices. There was some slight recovery at different times, but the demand was nothing was heavy and nearly stagnant.

### New York Stock Market Irregular

and Somewhat Weak. [A. R. Thompson & Co.'s Wire.] NEW YORK, Oct. 5 .- To-day's market was very irregular, but on the whole was inclined to be weak. Both sides seemed to be testing the temper of speculation, the bankers to see how it would act if let alone and the professional traders to ascertain the present disposition of the large financial interest. London was a seller of about 15,000 shares on balances. Considerable interest converges on the probable action of the United States Steel directors to-morrow as to the common stock dividend, the result of which will hardly be demand it. Call money here was firmer, market. Opinion to-day seems to incline more towards a reduction in the dividends of one or the passing of it altogether than what shaken. The time money market, any previous time. It seems highly probable that whatever action is taken it will be construed as bearish. Labor troubles are cutting some figure and the total absence of public interest in the market is very discouraging to those who have been looking and working for an improvement. On the whole to-day's trading has simply demonstrated how artificial in character the rally of the last week really was. Unless as already pointed out in these advices banking interest continues to contribute substantial buying power, prices will seek a lower level.

#### Stocks to Be Protected.

[Porterfield & Co.'s Financial Letter.] NEW YORK, Oct. 5.-The market opened at about Saturday's close. St. Paul paid its dividend of 31/2 per cent. semiannually and recovered a part of it, but the word boom market, but protect stocks. It is said to have emanated from the Morgan-Rockefeller party. Leading bankers claim liquidation has spent its force and from now on the situation will be healthier. The local crowd were disposed to scalp on the short side and seeing no scale buying they played for small profits. The net result was a sagging market. The United States Steel meeting to-morrow was used vigorously with all kinds of rumors regarding the dividend. The stock held firm, especially the preferred, and indicates that the full dividend will be declared. We do not look for any sensational bull movement, but believe now is the time to pick such stocks as Erie, Atchison, B. & O. and other divi-

There was only a moderate volume of trading in wheat and the undertone was of a decidedly weak nature. Corn experienced considerable weakness at the opening on favorable weather, lower cables and the decline in wheat, with quite active selling by several prominent houses. Shorts took advantage of the break to secure profits, and the buying from this quarter caused a rally, but the market eased off again with wheat. After selling between 44c and 44%c, December closed %c lower at 44%c. Local receipts were 476 cars, with 43 of contract grade. The weakness in wheat and corn had depressing influence on oats and the undertone was easier. Commission houses and local traders sold moderately on the increased receipts and poor shipping demand, while buying was mainly by shorts. During the last afteen minutes of trading the market developed unexpected steadiness and it looked as if the traders had oversold and were anxious to reinstate their lines. December closed with a loss of only a shade at 35%c, after selling between 35%c and

35%c. Local receipts were 179 cars. Provisions were quiet and prices showed little change throughout the session. The whole list was in fair demand early on the theory that a big packer was buying lard through brokers and prices were firm, but the weakness in grains caused a loss of the early firmness. January pork closed unchanged at \$12.45, January lard was 214c lower at \$6.85, while ribs were unchanged at \$6.571/2 Estimated receipts for to-morrow: Wheat, 100 cars; corn, 560 cars; oats, 300 cars; hogs, 12,000 head.

Hogs in Good Demand and Strong to Higher-Sheep Steady-Condition of Markets Elsewhere.

UNION : TOCKYARDS, INDIANAPOLIS, Oct. -Cattle-The receipts of cattle to-day were a ittle larger than a week ago and nearly 200 larger than a year ago. A good part of the supply were cattle on the stocker and feeder order, and, as usual at this time in the week, there was not much request for that class. The supply of cat,le fat enough to kill was small, and with a very fair demand from both local and outside sources there was more animation the bidding than at this time last week, an consequently it was a little easier for dealers to arrange terms. There were no really fancy cattle in their class represented, and therefore (over eleven millions), visible increased two the full strength of the market cannot be estab lishd by representative sales. In a general way sales of the fat cattle were reported strong compared with the close of last week, and occasion port insignificant and St. Louis 21/2c, with ally it appeared that steers sold a trifle higher. With the opening corn was safe at the lowest prices of the 1,100 lbs scad, as to quality and condition, at \$3.90 day. Fine weather over the entire corn @4.25. Heifers were reported at \$2.50@3.75, cows belt and weakness in other pits had some at \$1.25@3.70, and calves at \$4@7. The trade in general to day was in a healthier condition than and shipping business moderate; world's shipments, 3,384,000 bu on passage, shows at the beginning of last week, but shippers a decrease of 2,430,000. It looks like a should not again make the mistake of crowding the market, and no doubt a higher standard in the quality and condition of the consignments will benefit the market. Quotations:

STRINGENCY IN NEW YORK INFLU-ENCING INDIANAPOLIS MARKET.

Drop in Price of Local Securities Not Bear Raid-No Sales or Purchases.

Indianapolis has begun to feel the effect 6.00@6.25 of the long-continued depression of securities in Wall street and the generally frm-4.00@5.75 if not tight--condition of the money market all over the country. Money rates are getting firmer in Indian-

apolis and are likely to be firm all winter, according to prominent brokers. Yesterday local securities dropped appreciably, There was no sales or purchases on the 5.85 local exchange but prices are off considerably from the closing prices of Saturday, There was not a bear raid on local securities yesterday, as was reported. The market is simply dull and as a natural consequence variety of grades represented, and consequently of bidding prices being considerably lower than the asked quotations stocks are lower. however, it appears that prices were at least steady compared with the way equal kinds sold at the close of last week. Extra good lambs sold prices were not increased any. The asked price on Citizens' Street Rallway bonds is 11/2 points lower, Indianaports, Columbus & ers believe that normal supplies can be sold | Southern bonds are 1/2 point lower. Indianapolis Street Railway 4s are 41/2 points lowcommon to medium lambs ...... 3.50@4.50 er. The first and second series of New Telephone bonds are 1/2 to 1 point lower and Indianapolis Water bonds suffered a 4 point decline.

"Money conditions are getting firmer here as a result of the conditions in Wall street," said J. F. Wild, "and some of the holders of local securities are simply offering their holdings at a little less than the prevailing prices for several months. There has been no bear raid on the Indianapolis stock market." Asked if he thought there is likely to be

a material decline in local securities Mr. Wild said he thought there is little likelihood of such a condition. Most of the long lines of local stocks are held for investment by people who will not be affected by firm money rates, he says. Local Stock Exchange Quotations.
